wen so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

This is a remedy so universally known to surpass any other for the cure of threat and lung compilaints, that it is useless here to publish the orticines of its victure. Its unrivalled excellence for coughs and colds, and its truly wenderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth, few are the communities, or even families, amone them who have not some personal experience of its effects some living brophy in their midst of its victory over the multile and dangerous diserders of the throat and lunes. As all know the dreadful fabrilly of these disorders, and as they know, too, the effects of this truncly, we need to do more than to assure them that it has now all the victure that it did have when making the curse which have seen so strongly upon the confidence of manking.
